Patients injured in an automobile accident in the state of North Carolina have a protocol to be followed with reference to responsibility of payment.

Primary Insurance for those injured is called Med-Pay. This is an addendum to your auto insurance policy that you may have purchased and usually carries a \$1000 to \$5000 maximum. It is a no-fault policy and will cover your medical/chiropractic *regardless of who was at fault*. Since it is a separate portion of your policy it *will not affect your auto insurance rates*.

Your auto insurance company/address/phone# _____
Name on policy & policy # _____
Insurance Agent & Phone # _____
Med-Pay Y N Case # _____

Secondary Insurance is called Liability Insurance. This is the insurance of the person that was at fault.

Liability insurance company/address/phone # _____
Name of policy holder/address/phone # & policy # _____

Tertiary Insurance would be your Health Insurance. In order for you to utilize this policy you must show proof that you do not have coverage from your primary and secondary sources. If this policy is used, and your health insurance determines they are not responsible, they will ask for a refund of any monies paid.

Health Insurance company/address/phone # _____
Policy # _____
