Terms of Acceptance

When a person seeks chiropractic health care and we accept a person for such care, it is essential for both parties to be working towards the same objective.

Chiropractic has only one goal. It is important that each person understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

Health: A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of your child's chiropractic spinal evaluation, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. Our only practice objective is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I, _____ have read and fully understand the above statements.

(print name)

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction.

I therefore accept chiropractic care for my child on this basis.

Office Fee Schedule and Financial Policy

Service	Fees
Initial Discovery – First Visit	$90.00
Progress Discovery – Re-Evaluation	$45.00

Financial Policy

We are committed to providing your child with the best chiropractic care possible in a caring environment and have established our financial policies to achieve that goal. You will be expected to pay for your child's chiropractic care at the time the service is rendered unless you arrange and agree to a recommended care plan payment schedule in advance. These plans are designed to be the most cost effective way to keep your child as healthy as possible. They include your child's Crisis Care, Critical Transition and Lifestyle Care options. Details of these plans will be discussed with you during your child's Empowerment Session Report of Findings. Please choose one of the following documentation options:

- ❑ **Insurance – Superbill:** If you have insurance that covers out-of-network chiropractic care, we will give you all of the information you need to get reimbursed. This includes your child's diagnosis codes and details of charges on a specialized receipt called a superbill. We have found it is easier for your record keeping, and ours, if we give you receipts at the end of your child's second visit and then once per month after that. Just send your child's superbill to your insurance company, and they will communicate with you about your reimbursement. Remember, your agreement with your insurance company is between you and them. **Insurance companies typically title pediatric chiropractic care as "experimental" and will not reimburse for services rendered.

- ❑ **No Insurance:** If you do not have health insurance, choose not to use your health insurance or are participating in Lifestyle Care, you may request a receipt for tax purposes or a Health Savings Account (HSA) indicating the total amount you have paid for chiropractic care during the year. There is no insurance documentation given with these receipts.

I have read and understand the above policy. I have indicated the option that applies to me.

I understand that payment for care is out-of-pocket and paid before or directly after services are rendered. If I wish to obtain reimbursement from my health insurance company, Pure Light Family Chiropractic will supply the proper documentation necessary to receive reimbursement for services.
